

SPECIFICATION SHEET

Model: BB-LD-13W | Solar LED Flashing Light

PRODUCT OVERVIEW

The **BB-LD-13W Solar LED Flashing Light** is a high-efficiency solar-powered signaling and illumination station designed for robust outdoor performance. Engineered with an IP65 ingress protection rating and offering up to 50,000 hours of working lifespan, this system provides durable lighting and safety warning solutions under extreme working environments.

TECHNICAL SPECIFICATIONS

Product Name	Solar LED Flashing	Model Number	BB-LD-13W
Application	Solar Working Station	Power Source	Solar
Wattage	13W	Light Source	LED
Input Voltage	AC 220V ($\pm 10\%$)	Working Hours / Lifespan	50,000 Hours
Luminous Efficiency	100 lm/W	Color Temperature (CCT)	5000K (Daylight)
Color Rendering (CRI)	Ra ≥ 70	Support Dimmer	Yes
IP Rating	IP65	Certifications	RoHS, CE
Warranty	3-Year	Lighting Services	Lighting & Circuitry Design
Product Weight	5.0 kg	Place of Origin	Guangdong, China

PACKAGING & DELIVERY LOGISTICS

Selling Units	Single item	Single Package Size	80 x 50 x 100 cm
Single Gross Weight	15.0 kg	Net Weight	5.0 kg
